TEMPLATE SLEEVE
(OTI-UNI)

CMYK

The artwork should be prepared only in CMYK colours and only those designs are accepted for print. Other colour spaces, eg. Pantone colours should be converted to CMYK. We do not accept graphic designs in Pantone colours.

Note! Print is for general assessment of the graphic design, printing and distribution of the correctness of the texts. Imprinting is not 100% reflect the final result. There may be colour deviations, due to differences in printing technology used, the differences of the substrate used and your monitor.

Detailed requirements and guidelines:
- colour space: CMYK
- resolution: 300 dpi
- printing: offset, coated paper
- files format: PDF, AI, PSD, TIFF
- layer of the artwork should be flattened
- colours converted to CMYK
- the project should not include masks, layers, channels, etc. (except for punch lines)
- bleeds: ~2,5 mm
- Pantone colours converted to CMYK
